

AROMEA MULTI POWER

THE SECRET SCENT BOSS WITH UP TO FOUR TIMES MORE POWER

You don't have to see the AROMEA MULTI POWER to enjoy the fragrances it produces. The diffuser is elegantly hidden in the ventilation system or on the wall and releases its full power from there. With up to four scent units, the device uses cold nebulization technology to spread the aromas over a large area. Whether it is in a shopping centre, exhibition hall, event location, or multiple different rooms at the same time – it's no problem for the AROMEA MULTI POWER. And thanks to separate controls, all four scent units can be easily controlled and adjusted. From the time to the intensity, everything is under control.

UP TO FOUR FRAGRANCE UNITS

Flexible and wide-reaching: The AROMEA MULTI POWER can accommodate up to four different units, efficiently scenting large areas or multiple rooms.
